

BraindumpQuiz

- ✓ Online Tool, Convenient, easy to study.
- ✓ Instant Online Access
- ✓ Supports All Web Browsers
- ✓ Practice Online Anytime
- ✓ Test History and Performance Review
- ✓ Supports Windows / Mac / Android / iOS, etc.

- ✓ Installable Software Application
- ✓ Simulates Real Exam Environment
- ✓ Builds Exam Confidence
- ✓ Supports MS Operating System
- ✓ Two Modes For Practice
- ✓ Practice Offline Anytime

- ✓ Printable PDF Format
- ✓ Prepared by IT Experts
- ✓ Instant Access to Download
- ✓ Study Anywhere, Anytime
- ✓ 365 Days Free Updates
- ✓ Free PDF Demo Available

Security & Privacy

We respect customer privacy. We use McAfee's security service to provide you with utmost security for your personal information & peace of mind.

365 Days Free Updates

Free update is available within 365 days after your purchase. After 365 days, you will get 50% discounts for updating.

Money Back Guarantee

Full refund if you fail the corresponding exam in 90 days after purchasing. And Free get any another product.

Instant Download

After Payment, our system will send you the products you purchase in mailbox in a minute after payment. If not received within 2 hours, please contact us.

Exam : HP0-J40

Title : Designing HP StorageWorks
Solutions

Vendors : HP

Version : DEMO

NO.1 Which technology enables support of multiple traffic classes over a lossless Ethernet fabric?

- A. Fibre Channel over Ethernet
- B. Converged Enhanced Ethernet
- C. Data Center Bridging
- D. Shortest Path Bridging

Answer: B

NO.2 A customer has Microsoft clusters presenting multiple TB of data as file services. The customer is looking for a technology approach to simplify the data lifecycle management of that large amount of data.

Which HP Storage Essentials SRM tool would help the customer to quickly identify disk space that can be recycled, pinpoint critical files that should be replicated, and more accurately implement Information

Management initiatives?

- A. Backup Manager
- B. NAS Manager
- C. File System Viewer
- D. Provisioning Manager

Answer: C

NO.3 Which component handles file locking in a traditional file servicing infrastructure?

- A. majority node
- B. file server
- C. witness file share
- D. quorum disk

Answer: B

NO.4 What is the main function of core or director switches?

- A. provide support of multiple traffic classes over a lossless Ethernet fabric
- B. provide inter-switch links for any-to-any connectivity
- C. provide Fibre Channel over IP and iSCSI connectivity
- D. provide user ports for connecting servers and storage systems

Answer: B

NO.5 A potential customer is experiencing massive data growth in the past year and is no

longer meeting

their backup window. The customer's current environment consists of approximately 30 ProLiant servers

utilizing Backup Exec and a SCSI attached LTO2 autoloader.

After a number of meetings, the consultant presents the design of a D2D4112, an MSL8096 with HP Data

Protector. The customer likes the solution, but is concerned about how their staff will cope with the new

concepts and the transition to the new solution.

What should the consultant recommend to the customer for a smooth transition to the new equipment?

(Select two.)

- A. hands-on training during implementation
- B. handover session after the installation
- C. formal classroom training on the new products
- D. as-built configuration documentation
- E. solution presentation

Answer: AC

NO.6 Which encryption type is used for securing data in transit over IP networks?

- A. Advanced Encryption Standard
- B. Internet protocol security
- C. crypto processing engine
- D. Storage Media Encryption

Answer: B

NO.7 Which best practice should be suggested when designing an iSCSI Storage Area Network?

- A. limit parallel iSCSI sessions to 500 to achieve optimal performance
- B. separate iSCSI traffic from all other network traffic
- C. implement separate VLANs for each database application service
- D. team 1Gb/s networks to achieve optimal performance

Answer: B

NO.8 When talking to a CEO about service availability, which feature of HP Storage Essentials SRM should

be positioned by the consultant?

- A. SRM solutions are designed on the SMI-S industry standard for storage network

management.

- B. Big-picture view monitors and reports on a variety of business applications.
- C. Big-picture visualization automatically discovers and maps the storage network.
- D. SRM monitors utilization of the host, switch, and array.

Answer: B

NO.9 for application disaster recovery, which type of local replication permits rapid recovery of applications?

- A. capacity free snapshot
- B. snapclone
- C. consistency group snap
- D. traditional snapshot

Answer: B

NO.10 Which management protocols are used to gather basic information from the system, such as the type

of system (server, workstation, or printer) and serial number? (Select two.)

- A. WBEM
- B. NTP
- C. SMI-S
- D. TCP/IP
- E. SCTP

Answer: AC
